## Green Campus Policy

Maharashtra State Institute of Hotel Management and Catering Technology and Research Society, Pune is committed to promoting sustainable and eco-friendly practices on the campus.

The above goals are accomplished by implementing the following practices:

1. The institute conducts a Green audit every year.
2. The Institute has a large open terrace area, which collects water from the rains accumulated over the entire Terrace of the Institute and through an appropriately laid down Rain Water Drain System is sent back to the ground and hence ground water recharging is achieved.
3. The Institute has opted for a Bio Culture Wet Garbage Disposal system. The Organic Waste is collected from laboratories ( Food Production Training Kitchens) and the other areas of the Institute and is sent to vermin culture pits.
4. The institute follows all environmental legislation and government guidelines issued from time to time.
5. The Institute promotes the drive for Internal Tree Plantation and the survival of the Trees.
6. The Institute encourages 'Creation of Awareness' in respect to the Importance of Cleanliness and 'Green Initiatives'.
7. Students and Faculty monitor the use of electrical appliances, Fans, Tubelights etc and make sure they are switched off when not in use..
